

Honours Bachelor of Community Safety

Meet our students

This program is the first of its kind in Canada. Our students are taught a new way of looking at community safety, focusing on prevention, preparedness and social justice. Throughout the program, these students develop a strong understanding of the challenges communities face and how to address them.

Learn more about the classes these students take by visiting [the program webpage](#).

Core competencies and skills

- Applying collaboration, facilitation and negotiation skills required for delivering services in the public and private sectors.
- Exemplifying integrity and ethical conduct through respect for the principles and legislative framework of human rights, equity, diversity, and inclusion.
- Creating logical, thoughtful and coherent policy recommendations and proposals based on the safety needs of communities.
- Communicating effectively in written, spoken and visual forms.
- Applying advanced problem-solving skills developed through hands on learning.
- Critically assessing the interconnection of theory, policy and practice within the justice sector and other social systems.

Work term availability

- Fall (September – December)

Work term capabilities

- Assessing the features of agencies involved in the Canadian justice system, their programs and practices, and how these operate in developing community safety.
- Prescribing specific investigative techniques to promote community safety.
- Applying research techniques to critically analyze community safety programs.
- Understanding the factors that improve quality of life in diverse communities, applying major theoretical contributions within the social sciences.
- Evaluating the social, political, economic and ethical challenges that members of the local community, private organizations and governmental agencies must address within rapidly changing and diverse communities.
- Constructing evidence-based intervention strategies that promote community wellness, equity, inclusion and diversity.
