

# Honours Bachelor of Illustration

---

## Meet our students

Our students are trained to work across multiple disciplines and are well-versed in both traditional art and digital media. This program offers more illustration courses than many other programs, allowing our students to develop illustrations that inform, entertain, and persuade. In addition to honing their creativity, these students also learn the entrepreneurial skills needed to sustain a professional practice in this rapidly changing global market.

Learn more about the classes these students take by visiting [the program webpage](#).

## Core competencies and skills

- Applying knowledge and skills in information illustration, book illustration, graphic design, concept art, and narrative.
- Communicating by using drawing as a means of visual exploration, idea analysis, problem-solving and expression of thought.
- Using Adobe Creative Cloud (Photoshop, InDesign, Illustrator, AfterEffects).
- Applying technical skills in Cinema 4D and Sculptris.
- Working effectively both independently and in team settings.
- Creating compelling imagery that stands out and makes an impact.

## Work term availability

- Summer work term (May – August), taken at the end of Year 3.

## Work term capabilities

- Applying various types of illustration from traditional disciplines (such as painting and drawing) to digital technologies (such as web design and motion graphics).
- Creating illustrations from the development of an original concept to the final execution.
- Applying the theories and principles of design and communication to the development of effective illustrations.
- Using a variety of technologies to create, capture and manipulate illustration elements in producing a final product.
- Maintaining professional relationships and communicating effectively with clients, coworkers, supervisors, and others.
- Applying the appropriate and effective business practices when dealing with clients.
